## Tools & Technologies

C, C++, Java, C#, Ruby, Python, Erlang, JavaScript, TypeScript, HTML, CSS, Postgres, Redis, MySQL, SQL Server, SQLite, MongoDB, Oracle, Git, Rails, Spring, VueJS, Message Queues, AWS, Azure, CI/CD, UNIX and Windows.

## Industries

Consulting, manufacturing, product development, finance, pharmaceuticals, energy, IoT and gaming.

## Summary

Software engineering manager with over 30 years of experience across diverse industries, environments, and technologies. Skilled in all stages of product development, from start-up to large-scale production environments.

## Most Recent Roles

### Senior Software Development Manager, EnergyCAP

April 2023 – Present

I currently run the software development department for EnergyCAP's Dublin office. This has involved building and managing a team of up to six people working on the company's flagship and legacy systems.

### Technical Lead, HubSpot

October 2021 – April 2023

I led the team responsible for managing and maintaining the HubSpot integration with Shopify. This team of four was responsible for planning, designing and delivering new or enhanced functionality for the integration.

### Head of Software Development, Advarra

November 2014 – October 2021

I recruited and managed a team of up to a twelve engineers that created and maintained the Longboat software platform, a tool for managing pharmaceutical trials. I was involved with this platform from conception through to deployment for some of the largest companies in the pharmaceutical industry.

## Other Companies

Evercam Ireland, Zendesk, SumUp Payments Ltd, Jolt Online Gaming, InVision Software, Citigroup, Raytheon Systems, Njinni Software Ltd, Interactive Enterprise Ltd, Cambridge Technology Partners, Motorola BV and Parity Solutions.

## Education

### BSc Applied Computing

University Of Ulster, Magee College, Derry, Northern Ireland  
September 1990 – June 1994
